

**(Details of Research Publication)**

<b>Name Of The Article</b>	<b>ISSN No</b>	<b>Journal name</b>	<b>Month and Year of Publication</b>	<b>Author Position</b>
A STUDY TO COMPARE THE EFFECT OF HYPERTONIC SALINE VS TWENTY PERCENT MANNITOL ON BRAIN RELAXATION DURING BRAIN TUMOUR SURGERY INDIAN MEDICAL JOURNAL	0091-5871	INDIAN MEDICAL JOURNAL	February 2015	second author
THE EFFECT OF DEXMEDETOME DINE INFUSION ON PROPOFOL REQUIREMENT FOR MAINTENANCE OF OPTIMUM DEPTH OF ANESTHESIA DURING ELECTIVE SPINE SURGERY	0019-5049	IJA	July 2013	second author
EFFECT OF CLONIDINE AS Author ADJUVANT IN BUPIVACAINE INDUCED SUPRACLAVICULAR BRACHIAL PLEXUS BLOCK A RANDOMIZED CONTROLLED TRIAL	0253-7613	IJP	April 2010	Second
INTRATHECAL TRAMADOL ADDED TO BUPIVACAINE AS SPINAL ANESTHETIC INCREASES ANALGESIC EFFECT OF THE SPINAL BLOCKADE AFTER MAJOR GYNECOLOGICAL SURGERIES	0253-7613	IJP	August 2008	Second Author

<p>A            COMPARATIVE            STUDY OF            DURATION            OFPOST            OPERATIVE            ANALGESIA            BETWEEN            EPIDURAL            BUPIVACAINE            AND EPIDURAL            CLONIDINE            PLUS            BUPIVACAINE IN            LUMBAR            LAMINECTOMY            SURGERY            UNDER            GENERAL            ANAESTHESIA</p>	0019-5847	JIMA	April 2011	Corresponding Author
<p>ANALGESIC            EFFECT OF            LOW DOSE            GABAPENTINE            IN DAY CASE            GYNAECOLOGICAL            SURGERY            UNDER            GENERAL            ANAESTHESIA</p>	do	JIMA	November 2010	Corresponding Author
<p>A            COMPARIOSON            BETWEEN            LUMBAR            PLEXUS BLOCK            AND            SUBARACHNOID            BLOCK IN            ORTHOPEDIC            PROCEDURES            FOR LOWER            LIMB SURGERY            A PROSPECTIVE            RANDOMIZED            STUDY</p>	2277-8160	GJRA	June 2019	First Author
<p>COMPARATIVE            STUDY OF            HAEMODYNAMIC            CHANGES            BETWEEN SIX            PERCENT            HYDROXYEHL            STARCH AND            RINGER            LACTATE            COLOADING IN            ELDERLY            PATIENTS            UNDERGOING            LOWER LIMB            ORTHOPEDIC            SURGERY            UNDER SPINAL            ANESTHESIA</p>	2589-868X	IJMBS	June 2019	First Author

Comparison BetweenThe Reverse Sellick's and SORT Manoeuvres of Nasogastric Tube Insertion In Anaesthetised, Intubated, Adult Patients— A Randomized Clinical Study	0973-709X	JCDR	June,2022	Third Author
--	-----------	------	-----------	--------------

Comparison Of Capillary Blood Glucose Level At 1 h After Induction Of General Anaesthesia In Children Receiving Intraoperatively Either Ringer lactate With Glucose 1%Or Ringer Lactate Alone	2091-0576 2467-9100	AJMS	July 2022	Third Author
